Data Avaibility Statement

The original data presented in the study are openly available in https://www.agenciaeducacion.cl/orientar/estudios/estudios-nacionales/

Access the data, code, and analysis presented in the study are openly available in https://github.com/educacion-meritocracia/market-justice-preferences-school.

Table 1: Translation of items for health, pensions, and education

English Translation	Original Spanish
It is just that in Chile people with higher incomes can access better health services than people with low incomes	Es justo que en Chile las personas con mayores ingresos puedan acceder a una mejor atención de salud que las personas con ingresos más bajos
It is just that in Chile people with higher incomes can have better pensions than people with low incomes	Es justo que en Chile las personas con mayores ingresos puedan tener mejores pensiones que las personas de ingresos más bajos
It is just that in Chile people who can pay have a better education for their children	Es justo que en Chile las personas que puedan pagar tengan una mejor educación para sus hijos

Supplementary Material

Translated items for market justice preferences
